

We are a government acknowledged Low Fee Paying School

We aim to keep our tuition fees as affordable as possible to be accessible to all families. We need our community's practice of generosity by paying their fees on time, requesting payment plans, or organizing with us to volunteer for fees exchange to remain a viable school. This keeps our school facilities functioning and our enrolment numbers healthy. For families who do not have time to volunteer they can choose to discuss with us how to pay a Full Fee Plus amount that enables us to replace their volunteering at working bees with contracted services.

We have 2 Fee levels: Full Fee and Concession.

The concession is available to all families with a low-income concession card. We can also organise a concession status for any family experiencing financial stress during these difficult economic times. Additionally, we offer a 10% discount for each sibling enrolled.

Volunteering

Supporting our school with your skills, energy and time, contributes to our financial viability and maintaining our government status as a Low Fee School model. We request 8 hours volunteering per term per family.

Fees Assistance program

If your financial circumstances are a limitation to enrolling your child, contact the Principal so that we can arrange our Volunteering and Fees Assistance program. We are committed to being inclusive and valuing what each family can offer our school. This is particularly so during times of financial hardship. We can support you with this as a confidential and supportive process.

2023 Tuition and Fees

Fee category	Total annual	Term payment
